

DEC 03 2007

Serial No. 10/626,383

Docket No. GTW-0133/P1905

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) A method of creating a backup copy of data comprising:
creating a protected area on a first storage device,
copying contents from a second storage device to the protected area of the
first storage device; and
copying contents of a the protected area of a the first storage device to a user area of the first storage device; ~~and~~
~~saving the user area to a second storage device, the user area comprising~~
~~user accessible content and the copied contents of the protected area.~~
2. (Original) The method of claim 1, further comprising:
downloading a utility, wherein the utility performs the copying.
3. (Currently Amended) The method of claim 1, ~~wherein the saving the user area~~
~~further comprises~~ further comprising:
saving the user area to the second storage device attached to a backup server.
4. (Currently Amended) The method of claim 1, ~~wherein the saving the user area~~
~~further comprises~~ further comprising:
saving the user area to a the second storage device, the user area comprising user accessible content and the copied contents of the protected area.
5. (Original) The method of claim 1, further comprising:
booting to the protected area prior to the copying.
6. (Currently Amended) The method of claim ~~5~~ 4, further comprising:

Serial No. 10/626,383

Docket No. GTW-0133/P1905

rebooting to the user area after the copying and before the saving.

7. (Currently Amended) A machine readable storage medium bearing instructions that upon being executed comprise:

restoring a protected area directory from a first storage device to a user area of a second storage device; ~~and~~

copying the protected area directory from the user area of the second storage device to create a backup copy in a protected area of the second storage device; and

creating the protected area on the second storage device prior to the copying.

8. (Previously Presented) The machine readable storage medium of claim 7, further comprising:

saving the protected area directory from the second storage device to the first storage device prior to the restoring.

9. (Canceled)

10. (Previously Presented) The machine readable storage medium of claim 7, further comprising:

booting to the protected area prior to the copying.

11. (Previously Presented) The machine readable storage medium of claim 7, further comprising:

booting to the user area after the copying.

12. (Previously Presented) The machine readable storage medium of claim 7, further comprising:

downloading a utility, wherein the utility is to perform the copying.

Docket No. GTW-0133/P1905

13. (Currently Amended) An electronic device comprising:

a processor; and

a storage device, wherein the storage device comprises instructions, which upon being executed on the processor comprise:

determining whether the storage device includes a protected area,

in response to determining that the storage device does not

includes a protected area, creating a protected area on the storage device,

booting to the protected area and copying contents of the protected area to a user area of the storage device, and

saving a backup copy of the user area to a backup storage device.

14. (Original) The electronic device of claim 13, wherein the instructions further comprise:

rebooting to the user area prior to saving the user area.

15. (Original) The electronic device of claim 13, further comprising the backup storage device.

16. (Original) The electronic device of claim 13, wherein the instructions are downloaded from a backup server, wherein the backup storage device is connected to the backup server.

17. (Currently Amended) A backup server comprising:

a backup storage device; and,

a read utility to be downloaded to and executed at an electronic device,

a controller to download the directory from the backup storage device to the user area of the storage device; and

a create utility to be downloaded and executed at the electronic device,

wherein the read utility is to copy contents of a protected area of a storage device attached to the electronic device to a directory in a user area of the storage

Serial No. 10/626,383

Docket No. GTW-0133/P1905

device, and wherein the read utility is further to save a backup copy of the directory to the backup storage device; and

wherein the create utility is to create the protected area on the storage device and copy the directory into the protected area.

18. (Original) The backup server of claim 17, wherein the read utility is further to cause the electronic device to boot to the protected area before the copy.

19. (Original) The backup server of claim 17, wherein the read utility is further to cause the electronic device to boot to the user area after the copy and before the save.

20. (Canceled)

21. (Currently Amended) An apparatus comprising:

means for creating a protected area of a storage device;

means for booting to a the protected area of a the storage device;

means for copying contents of the protected area to a user area of the storage device;

means for rebooting to the user area; and

means for saving a backup copy of the user area to a backup storage device.

22. (Canceled)
